

RUPAYAN CHATTARAJ

Computer Science & Engineering Student

+91 8918158588 | rupayanchattaraj@gmail.com | GitHub | Portfolio | LinkedIn
Vellore, Tamil Nadu, India

Professional Summary

Computer Science student at VIT Vellore and self-taught **full-stack developer** experienced in building **AI-integrated web applications, computer-vision systems**, and backend services using **Python, Flask, and JavaScript**. Skilled in **Groq and Gemini API integration**, responsive web development, **REST APIs**, and end-to-end deployment. Strong foundation in **Data Structures and Algorithms** with consistent LeetCode practice.

Education

Vellore Institute of Technology (VIT), Vellore	Expected Graduation: 2028
B.Tech in Computer Science and Engineering – CGPA: 8.74/10 (through 4th semester)	
DAV Model School, Durgapur, West Bengal	Class XII – 2024
Higher Secondary Education – Percentage: 89%	
DAV Model School, Durgapur, West Bengal	Class X – 2022
Secondary Examination – Percentage: 93.2%	

Interests

Solo Traveling | Competitive Sports | Competitive Programming | Independent Software Projects

Technical Skills

Languages: **Java, Python, C, C++, JavaScript**
Frontend: **HTML5, CSS3, React.js**
Backend: **Node.js, Flask, EmailJS, REST APIs**
Databases: **MySQL, Oracle Database 21c, SQL *Plus, PL/SQL**
AI & Computer Vision: **OpenCV, MediaPipe, Groq API, Gemini API**
Tools: **Git, GitHub, VS Code, Postman, Render, Netlify**
Core: **Data Structures & Algorithms, RESTful API Design, Full-Stack Architecture**

Projects

Rusho.Bot – AI-Powered Virtual Assistant	Python, Flask, Groq API, Gemini API, JavaScript
- Engineered a full-stack AI assistant integrating Groq and Gemini APIs for text and voice interaction. - Developed ten AI modules including Resume Analyzer, Code Reviewer, Quiz Generator, PDF Chat, and Translator. - Built a responsive chat interface with model selection and real-time responses; deployed on Render.	
Wavify – Music Streaming Web Application	HTML, CSS, JavaScript
- Developed a responsive music streaming application with playlists, playback controls, and interactive UI. - Designed a modern user-focused interface with responsive layouts and smooth navigation.	
Hand Gesture Controller – Touchless Input System	Python, OpenCV, MediaPipe
- Built a real-time hand-tracking system enabling touchless computer interaction using computer vision. - Implemented gesture recognition using MediaPipe landmarks for accurate hand tracking.	
Eye Pointer – Eye-Tracking Cursor Control	Python, OpenCV, MediaPipe
- Developed an eye-tracking application enabling cursor control through facial landmark detection. - Implemented accessibility-focused hands-free computer interaction.	

Internship Experience

Technook – Web Development Intern	Web Development
- Worked on responsive web interfaces and practical web development tasks using HTML, CSS, and JavaScript. - Developed, tested, debugged, and improved web-based application components.	

Hackathons

Code2Create 7.0 – Team CipherSquad	Group Leader
- Led Team CipherSquad in developing MailMate, an email workflow application during the flagship Code2Create 7.0 hackathon. - Coordinated team development, resolved debugging issues, and contributed significantly to frontend implementation and ElevenLabs integration.	

Certifications

- AI Upskilling Certificate: Technical Foundations** – Qualcomm Technologies, Inc.
- Microsoft Azure Fundamentals (AZ-900) Cert Prep: 1 Cloud Concepts** – Microsoft Press, LinkedIn Learning.
- Builder Labs: Introduction to AWS Cloud** – AWS Training and Certification.
- The Cybersecurity Threat Landscape** – LinkedIn Learning.
- Ethical Hacking: Wireless Networks** – LinkedIn Learning.

Achievements

- Solved **200+ Data Structures & Algorithms problems** on **LeetCode**.
- Built and deployed multiple **AI-powered and full-stack applications** independently.
- Actively participate in **hackathons** and continuously develop skills in **AI, Computer Vision, and modern web technologies**.
