

RUPAYAN CHATTARAJ

Computer Science Engineering Student

+91 8918158588 | rupayanchattaraj@gmail.com

PROFESSIONAL PROFILE

Motivated Computer Science Engineering student at VIT Vellore with a strong foundation in software development, programming, and problem-solving. Passionate about Artificial Intelligence, Computer Vision, Full-Stack Web Development, and building impactful real-world applications. Experienced in developing AI-powered assistants, computer vision systems, and responsive web applications. Continuously enhancing Data Structures & Algorithms skills and eager to contribute to innovative software engineering projects.

Frontend Development:

HTML5, CSS3, JavaScript, React.js

Backend Development:

Node.js, Flask, EmailJS

Database:

MySQL, Oracle SQL Plus (21c)

AI & Computer Vision:

OpenCV, MediaPipe, Gemini API, Groq API

Tools & Platforms:

Git, GitHub, VS Code, Postman, Render, Netlify

EDUCATION

Vellore Institute of Technology (VIT),
Vellore

Bachelor of Technology (B.Tech) –
Computer Science and Engineering

Expected Graduation: 2028

CGPA: 8.74 (Up to 4th Semester)

DAV Model School, Durgapur, West
Bengal

Higher Secondary Education (2024)

Score: 89%

PROJECTS

Rusho.Bot — AI Virtual Assistant

Technologies: Python, Flask, HTML, CSS, JavaScript, Groq API, Gemini API

- Developed an AI-powered virtual assistant supporting both voice and text interaction.
- Integrated Groq and Gemini APIs to generate intelligent responses.
- Designed a responsive web interface for seamless user interaction.
- Successfully deployed the application on Render.

TECHNICAL SKILLS

Programming Languages:

Java, Python, C, C++, JavaScript

Hand Gesture Controller

Technologies: Python, OpenCV, MediaPipe

- Built a real-time gesture recognition system using computer vision.
- Enabled touchless interaction through hand tracking.
- Improved gesture recognition accuracy using MediaPipe landmarks.

- Regularly solve Data Structures & Algorithms problems on LeetCode.
- Continuously learning Artificial Intelligence, Computer Vision, and modern web technologies.
- Strong interest in Software Engineering and scalable application development.

Eye Pointer

Technologies: Python, OpenCV, MediaPipe

- Developed an eye-tracking application for cursor control.
- Implemented facial landmark detection for precise eye movement tracking.
- Focused on accessibility-oriented human-computer interaction.

AREAS OF INTEREST

- Artificial Intelligence
- Computer Vision
- Full-Stack Web Development
- Software Engineering
- Data Structures & Algorithms
- Machine Learning

Wavify

Technologies: HTML, CSS, JavaScript

- Designed and developed a responsive music streaming web application.
- Implemented playlist management and music playback controls.
- Built a clean, modern, and user-friendly interface.

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Team Collaboration
- Adaptability
- Communication
- Continuous Learning

ACHIEVEMENTS

- Built and deployed multiple AI-powered and full-stack web applications.
